a system of rhetoric pdf

Rhetoric is the art of using language to convince or persuade. Aristotle defines rhetoric as "the faculty of observing in any given case the available means of persuasion" and since mastery of the art was necessary for victory in a case at law or for passage of proposals in the assembly or for fame as a speaker in civic ceremonies, calls it "a combination of the science of logic and of the ...

Contrastive rhetoric is the study of how a person's first language and his or her culture influence writing in a second language or how a common language is used among different cultures. The term was first coined by the American applied linguist Robert Kaplan in 1966 to denote eclecticism and subsequent growth of collective knowledge in certain languages.
