Biosafety level 3 is appropriate for work involving microbes which can cause serious and potentially lethal disease via the inhalation route. This type of work can be done in clinical, diagnostic, teaching, research, or production facilities. Here, the precautions undertaken in BSL-1 and BSL-2 labs are followed, as well as additional measures including:

Biopunk (a portmanteau of "biotechnology" or "biology" and "punk") is a subgenre of science fiction that focuses on biotechnology. It is derived from cyberpunk, but focuses on the implications of biotechnology rather than information technology. Biopunk is concerned with synthetic biology. It is derived of cyberpunk involving bio-hackers, biotech mega-corporations, and oppressive government ...

Over 6 billion people live on our planet. The human species™ with individuals of many shapes, sizes, and colors™ appear to be very diverse. Where did all these people come from, and how closely related are members of the human family? Download the accompanying PDF handout for students to consider ...

### **Using DNA to Trace Human Migration | HHMI BioInteractive**

A close look at the human body reveals structures that we inherited from distant animal ancestors. Take, for

example, the pattern of the bones in our armsâ€”they can be traced back to fossilized fish that lived at the time that life first made the transition from water to land.
