Blood Falls is an outflow of an iron oxide-tainted plume of saltwater, flowing from the tongue of Taylor Glacier onto the ice-covered surface of West Lake Bonney in the Taylor Valley of the McMurdo Dry Valleys in Victoria Land, East Antarctica.. Iron-rich hypersaline water sporadically emerges from small fissures in the ice cascades. The saltwater source is a subglacial pool of unknown size ...

Knowing which blood bottles to use for different tests may not be that important for passing your finals, but will be absolutely essential when you start work on the wards afterwards. It is one of those practical things which tends to be poorly taught at medical school, if at all. Instead you are seemingly expected to just pick it up on your first day as a junior doctor, when taking bloods ...
