A subsistence economy is a non-monetary economy which relies on natural resources to provide for basic needs, through hunting, gathering, and subsistence agriculture. "Subsistence" means supporting oneself at a minimum level; in a subsistence economy, economic surplus is minimal and only used to trade for basic goods, and there is no industrialization.

The knowledge economy is the use of knowledge (savoir, savoir-faire, savoir-*être*) to generate tangible and intangible values. Technology, and in particular, knowledge technology, helps to incorporate part of human knowledge into machines. This knowledge can be used by decision support systems in various fields to generate economic value.
