Deindustrialization's Causes and Implications

Title: Deindustrialization: Causes and Implications - Wp/97/42 Created Date: 4/23/1997 2:41:42 AM

Deindustrialization: Causes and Implications - Wp/97/42

It is easy to view deindustrialization as the result of a suffering economy. In some cases, though, the phenomenon is actually the result of a maturing economy. In the United States, for example, the "jobless recovery" from the financial crisis of 2008 resulted in deindustrialization without an actual decline in economic activity.

THE CAUSES OF WELFARE STATE EXPANSION Deindustrialization or Globalization? By TORBEN IVERSEN and THOMAS R. CUSACK* INTRODUCTION IT is commonplace to argue that the increasing openness of national economies has meant growing economic insecurity. This insecurity once supposedly fueled demands for larger welfare spending as a form

THE CAUSES OF WELFARE STATE EXPANSION Deindustrialization

industrialization, not deindustrialization (in terms of both employment and output). So the culprit for deindustrialization in developing countries must be found elsewhere. The obvious alternative is trade and globalization. A plausible story would be the following.

Premature Deindustrialization Dani Rodrik

Deindustrialization and the shift to services ... the deindustrialization of the United States and the need for a national industrial policy. The well-reported growth in ... cause of the increase in imports, especially of manufactured goods, resulting in part from the high value of the dollar. ...

Deindustrialization and the shift to services

Overall, deindustrialization usually occurs because a particular industrial activity is no longer economically viable. For example, maybe a region containing lots of steelworks can no longer compete with cheaper steel from abroad. When that happens, those steelworks are forced to go out of business.
