Introduction. From the preschool years onward, children with low initial levels of mathematics skills continue to fall further behind their peers. 1 To ensure academic success for all children, these widening gaps must be addressed early. In order to help close content-area gaps, we must leverage the way children learn most successfully to lead to better outcomes.

This page is a collection of links for parents and teachers. Topics are based on the curriculum for Kindergarten through grade five, although many pages will be of interest to older students. This page also includes a list of publishers and software companies.

Parent and Teacher Links

Foundations for School Success is a web-based application used to collect data on Parents as Teachers children, families and educators. This application reflects the initial phase for data collection intended to connect early learning with the K-12 and beyond Longitudinal Data System in Kansas.

Early Childhood Parent Involvement (Family Engagement)

Computer science is the study of processes that interact with data and that can be represented as data in the form of programs. It enables the use of algorithms to manipulate, store, and communicate digital information. A computer scientist studies the theory of computation and the practice of designing software systems.. Its fields can be divided into theoretical and practical disciplines.

Computer science - Wikipedia

The history of writing traces the development of expressing language by letters or other marks and also the studies and descriptions of these developments.. In the history of how writing systems have evolved in different human civilizations, more complete writing systems were preceded by proto-writing, systems of ideographic or early mnemonic symbols. ...
