What is Long-Term Care? Individuals need long-term care when a chronic condition, trauma, or illness limits their ability to carry out basic self-care tasks, called activities of daily living (ADLs), (such as bathing, dressing or eating), or instrumental activities of daily living (IADLs) (such as household chores, meal preparation, or managing money).

I'd like to share some things I've learned about women from the relationships I've had. A lot of that experience comes from Eastern European girls, who are more feminine than American girls, but I believe the true nature of women is the same no matter where you go, lurking underneath regardless of outward presentation and behavior.. 1.
