This hands-on kit is an interactive set of tools designed to enhance water literacy and engage students in water conservation activities. The Water Innovation and Stewardship Education (WISE) Kit was designed with a grade 4-9 audience in mind but we know teachers are experts at adapting great resources to fit within their unique classroom situations.

Chemical kinetics, also known as reaction kinetics, is the study of rates of chemical processes. Chemical kinetics includes investigations of how different experimental conditions can influence the speed of a chemical reaction and yield information about the reaction's mechanism and transition states, as well as the construction of mathematical models that can describe the characteristics of a ...

Ruthenium is a chemical element with symbol Ru and atomic number 44. It is a rare transition metal belonging to the platinum group of the periodic table. Like the other metals of the platinum group, ruthenium is inert to most other chemicals. Russian-born scientist of Baltic-German ancestry Karl Ernst Claus discovered the element in 1844 at Kazan State University and named it after the Latin ...
