An engineering technologist (eTechnologist) is a professional trained in certain aspects of development and implementation of a respective area of technology. Engineering technology education is even more "applied" and less theoretical than engineering science education, though in a broad sense both have a focus on practical application. Engineering Technologists often assist professional ...

Neuromorphic engineering, also known as neuromorphic computing, is a concept developed by Carver Mead, in the late 1980s, describing the use of very-large-scale integration (VLSI) systems containing electronic analog circuits to mimic neuro-biological architectures present in the nervous system. In recent times, the term neuromorphic has been used to describe analog, digital, mixed-mode analog ...

You can't "convert" a DataTable to a PDF Document. But you can insert data into it as normal content.. This would have to be done through a data control, like the GridView or ListView; just like in a normal webpage. Which is why the article you have linked to does that. GridView is probably the closest and easiest way to make it aesthetically appear the same as a DataTable.
