

food product design a pdf

Adulteration is a legal term meaning that a food product fails to meet the legal standards. One form of adulteration is an addition of another substance to a food item in order to increase the quantity of the food item in raw form or prepared form, which may result in the loss of actual quality of food item.

History. Spam was introduced by Hormel on July 5, 1937. The Oxford Encyclopedia of Food and Drink in America states that the product was intended to increase the sale of pork shoulder which was not a very popular cut. Ken Daigneau, brother of a company executive, won a \$100 prize that year in a competition to name the new item. Hormel claims that the meaning of the name "is known by only a ...
