decision making, and administrative activities. “ Executive support systems: “ Help address strategic
issues and long-term trends, both in firm and in external environment.

Management Information Systems (MIS)

Management Information System (MIS) is a planned system of collecting, storing, and disseminating data in

the form of information needed to carry out the functions of management.

Management Information System - Tutorialspoint [PDF]

Consequentially, a good management of information systems leads to good decision-making in business just in the same way poor management leads to poor decision making. It is based on this foundational concept that this paper is going to circumspectly analyze the roles of management systems in decision making.
