

purchasing selection and procurement pdf

Procurement is the process of finding, agreeing terms, and acquiring goods, services, or works from an external source, often via a tendering or competitive bidding process. The process is used to ensure the buyer receives goods, services, or works at the best possible price, when aspects such as quality, quantity, time, and location are compared. ...

Details. Purchasing managers/directors, and procurement managers/directors guide the organization's acquisition procedures and standards. Most organizations use a three-way check as the foundation of their purchasing programs [citation needed]. This involves three departments in the organization completing separate parts of the acquisition process.
