Group--discusses the purpose of IBM's PMCoE and its approach to training project managers and practicing project management across the organization.

Multidimensional management - PMI | Project Management

Managed relocation (MR) has rapidly emerged as a potential intervention strategy in the toolbox of biodiversity management under climate change. Previous authors have suggested that MR (also referred to as assisted colonization, assisted migration, or assisted translocation) could be a last-alternative option after interrogating a linear decision tree.

Multidimensional evaluation of managed relocation

A multidimensional database management system (MDBMS) is a database management system that uses a data cube as an idea to represent multiple dimensions of data available to users.

Multidimensional Database Management System (MDBMS)

PDF; Abstract. ... and in explicitly accounting for nonstationarity in univariate risk frameworks [e.g., (10, 24)], accounting for nonstationarity in a multivariate risk framework has been less common (13, 25).

Multidimensional risk in a nonstationary climate: Joint

A multidimensional organization is an organization that pursues its objectives simultaneously through multiple dimensions. The multidimensional organization was discussed as early as the 1970s. It required the combination of the fall of costs of information, the development of dynamic multidimensional markets, and a new generation of workers and managers, to create this paradigm shift in organization forms.
