The Real Planet of the Apes: A New Story of Human Origins

The Real Planet of the Apes makes the explosive claim that it was in Europe, not Africa, where apes evolved the most important hallmarks of our human lineage—such as dexterous hands and larger brains. In this compelling and accessible book, David Begun, one of the world's leading paleoanthropologists, transports readers to an epoch in the remote past when the Earth was home to many migratory populations of ape species.

The Real Owners of the Planet is not just another wildlife photo book. Hopefully it will make a difference. The aim is to spread attention about African endangered animals, and raise funds going directly to their protection.
